THE PROJECT

A sailing event for students.

Students@Sail is a series of sailing events in the J70 boat class for students throughout Europe. The project starts in 2025 in the sailing centre Punat, on the island of Krk to inspire the sport of sailing and new ones in Croatia. The aim is to set standards for students in the sailing world.

We see sailing as a great passion in which team spirit, fun on the water and enthusiasm are paramount.

SAILING IS PASSION

Students from all Europe and beyond..

TRAINING CAMP REGATTA & EVENTS

"Sailing at the limit"

JOIN IN & BE PART OF IT

Training camp, Regatta, Parties & Sea.

Be there, train with Olympic sailors, experience exciting races and celebrate with your sailing community. Young sailing teams with at least 2 crew members enrolled at a university can take part.

The training camp and the regatta can also be booked independently of each other.

REGATTA

Umpired Fleet Racing.

REGATTA

Experience J/70 sailing boats in umpired fleet racing.

Each regatta consists of a series of races. The races are sailed in teams of 3 to a maximum of 5 people on J/70 boats from the Swiss & Austrian sailing leagues.

The boats will be drawn by lot and swapped after each race. A maximum of 16 teams can take part in the regatta.

The racing rules of the World Sailing Federation apply to the races.

TRAINING CAMP

Practise with Olympic sailors.

The training camps are accompanied by coaches from professional sport. The focus of the camps is on intensive manoeuvres, team works, rules & tactics and, above all, lots of sailing with many starts on the J/70s.

In video analyses and feedback sessions, Livia Naef (CH) and Niko Resch (AUT) will give you new insights or improve your existing techniques.

PLACE & HOW TO REACH

By Car, Flixbus, Airplanes.

Punat is located on the island of Krk, Croatia, in the northern Adriatic. The island is connected to the mainland by a bridge. You can therefore simply travel directly to Punat by car.

Alternatively, you can take a Flixbus or plane to Rijeka or Zagreb; if there is enough interest, a shuttle can be organised.

Unfortunately, travelling by train is not possible.
