SERVICES

Your connection to talents.

Your access

We provide you with more than a platform. Career Services networks our students with the corporate world - and vice versa. This can take place at a virtual level as well as face to face. We operate a website with current and relevant content, links and databases for this purpose. We also organise workshops, talks, career speed dating and networking events to enable students and companies to talk to each other and exchange information directly.

Our goals

We provide you with everything from a single source. Career Services is the single point of contact for our students and for our partner companies. We work professionally, responsibly and in a partnership-based manner, providing our students with security and supporting them on their career path. We see ourselves as a service-focussed contact partner who not only helps students to find the right job, but also to get it.

For students

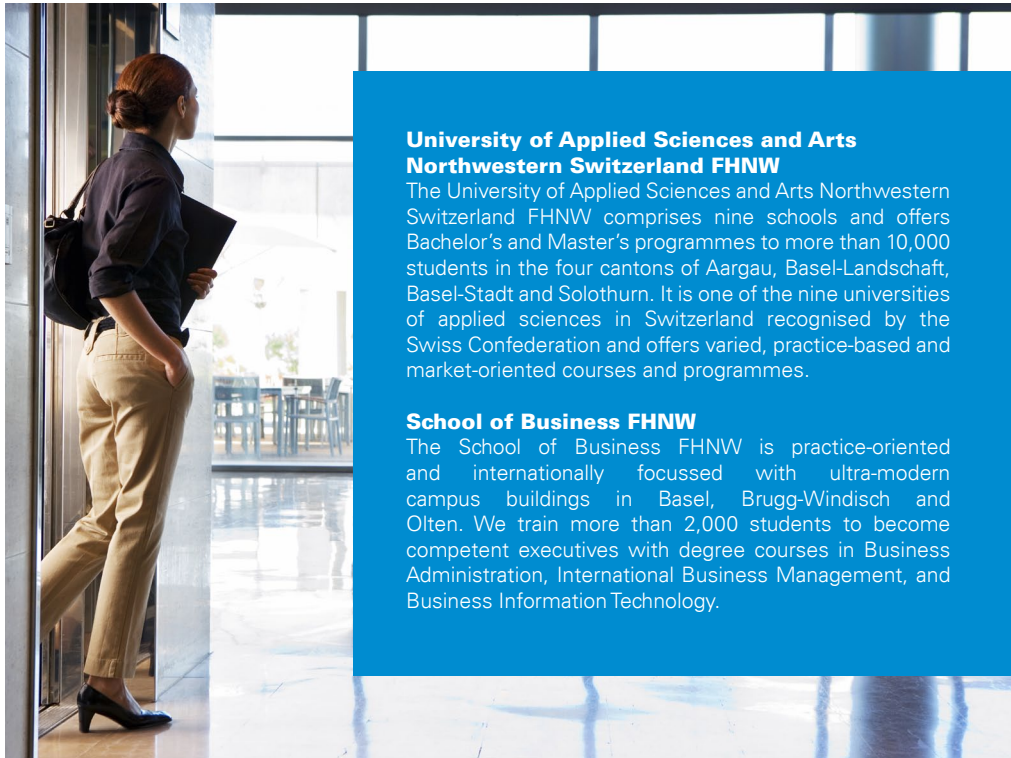

Your career is in good hands with us. Career Services offers you professional and practice-based support as you launch your career, e.g. in the form of databases, handbooks and links, through individual consultancy or a mentoring programme, as well as in our Assessment and Orientation Centre. Our cooperation with companies and institutions allows you to gain insights into day-to-day work and practice and to network with potential employers.

For companies

You will find the right employees with us. Career Services offers you various options for getting to know students on the campuses in Basel, Brugg-Windisch and Olten: from the job vacancy portal and CV portal to the active dialogue-focussed CV check and career talk. All our offers provide you with the opportunity of presenting yourself to students as a competent discussion partner and possible employer and of getting to know potential employees personally for the first time.

University of Applied Sciences and Arts Northwestern Switzerland FHNW

The University of Applied Sciences and Arts Northwestern Switzerland FHNW comprises nine schools and offers Bachelor's and Master's programmes to more than 10,000 students in the four cantons of Aargau, Basel-Landschaft, Basel-Stadt and Solothurn. It is one of the nine universities of applied sciences in Switzerland recognised by the Swiss Confederation and offers varied, practice-based and market-oriented courses and programmes.

School of Business FHNW

The School of Business FHNW is practice-oriented and internationally focussed with ultra-modern campus buildings in Basel, Brugg-Windisch and Olten. We train more than 2,000 students to become competent executives with degree courses in Business Administration, International Business Management, and Business Information Technology.
