

Projekt ImmoTool

Wie wir in 72 Stunden in Saas-Fee
eine Webapplikation entwickelten

Photo by [Product School](#) on [Unsplash](#)

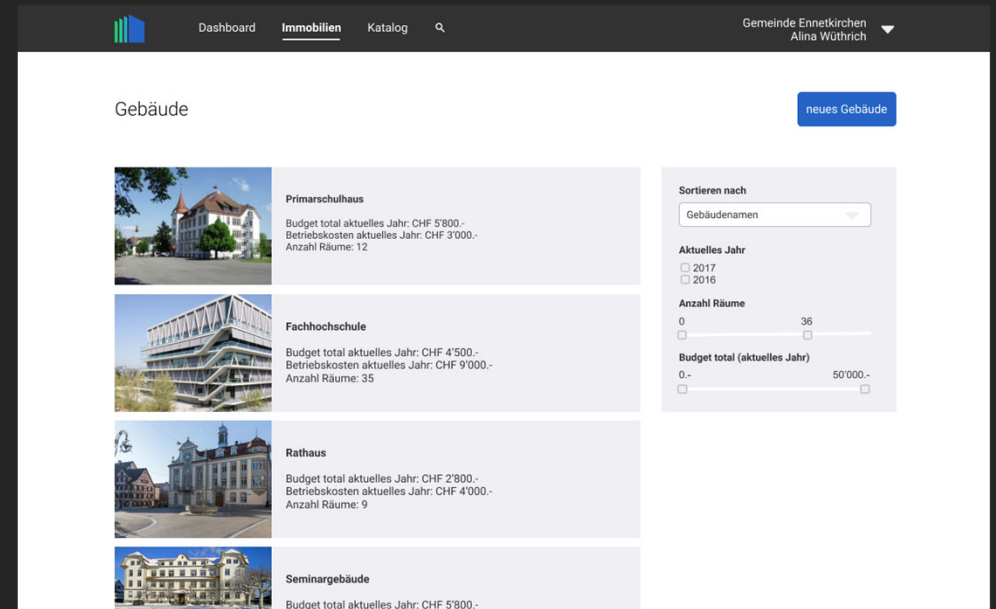

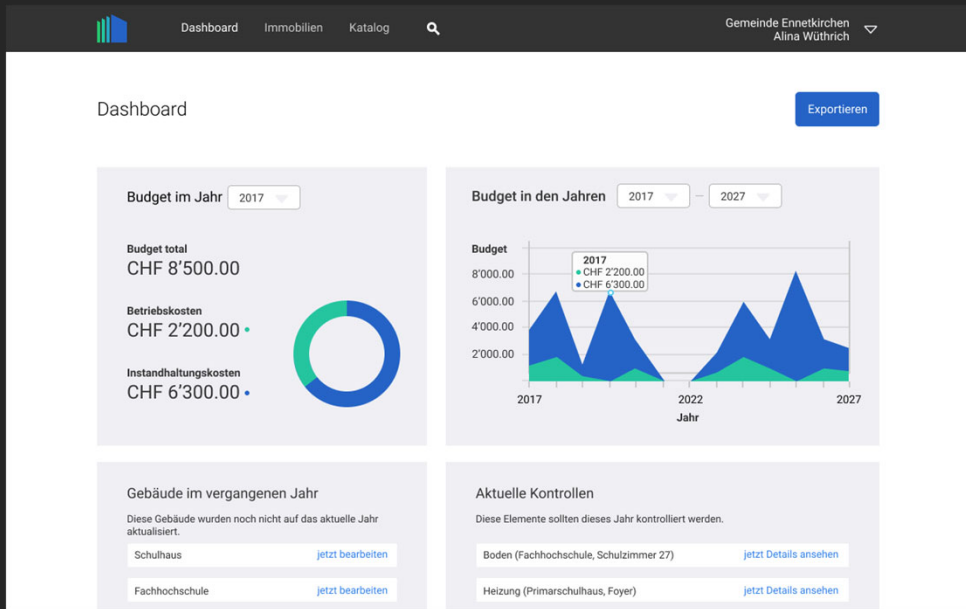

August 2017 – Projektwahl

Unser Auftrag

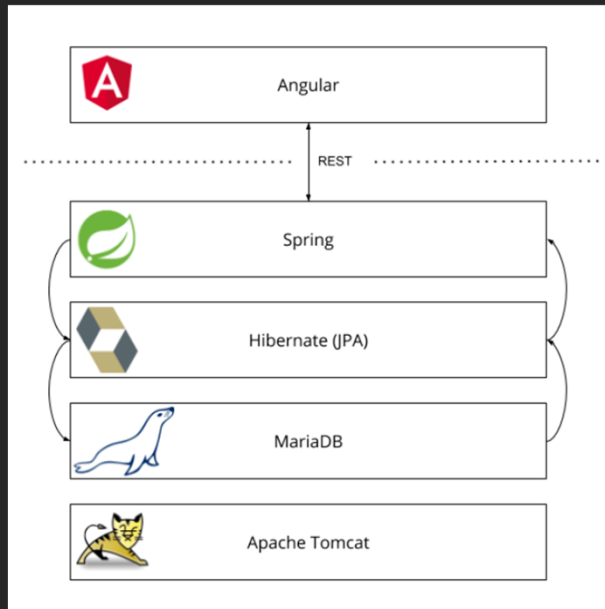

- 9 Studierende – 1.5 Jahre
- Immobilien-Management für Gemeinden
- Webapplikation im Auftrag von IT-Firma

Erste Hälfte des Projekts

- Diskussionen mit den Kunden
- Erhebung der Anforderungen
- Arbeitsaufteilung
- Vorbereitung der Assessments
- Erstellen von Prototypen

Prototypen

Programmieren

(ab und zu ein bisschen)

Juni 2018

- 2/3 der Projektdauer
- Kaum Code vorhanden
- Rollenwechsel anfangs Sommerferien

Coding-Retreat in Saas-Fee

Coding-Weekend

Commits zu dev

Excluding merge commits. Limited to 6,000 commits.

Januar 2019 – Fertig!

- Funktionierende Webapplikation
- Mangelndes Fachwissen des Kunden
- Gute Vorlage für neue Implementierung

Schlitteln auf dem Stoos 2019

Wandern im Kanton Uri 2020

Danke an die Projektschiene!

- Arbeiten mit modernen Technologien
- Praxiserfahrung in "abgesichertem" Modus
- Anhaltende Freundschaften
