4 Filtering part 1: episodes 1-6

Note: The episode structure is reflected in the last digit of the variable name and is used to document the individual educational/vocational episodes of respondents. The first episode corresponds to the educational/vocational activity at the time of the last survey (wave 4) (t5filter). Some information on this first episode was not recorded in the 5th wave; it is present in the 4th wave's data. If this educational/vocational activity has ended, all episodes (episodes 2-6) that have taken place since then are recorded. The first educational/vocational activity after the activity in wave 4 (t5edudec1w4) is the second episode of the 5th wave. For respondents for whom no or only incorrect information from wave 4 is available (t5filter = 3 or t5reasinc/ t5reasincscho = 1 or t5reasinc/ t5reasincscho = 4), all episodes of their educational/vocational activity since the 9th grade are recorded again. Their first activity after completion of the 9th grade (t5edudec1) is the first episode of the fifth wave.
