

“Inside” Platform - Instructions

Course descriptions

The aim of this guide is to inform you about the recent changes in the curriculum at FHNW School of Business as well as giving you access to the course descriptions. Please bear in mind the changes in our curriculum when making the study plans.

To check which courses are available for exchange students, and which courses belong to each study year, please visit our [IO platform](#). To read module descriptions of these courses, visit the Inside platform (to access the Inside platform, continue reading Part B).

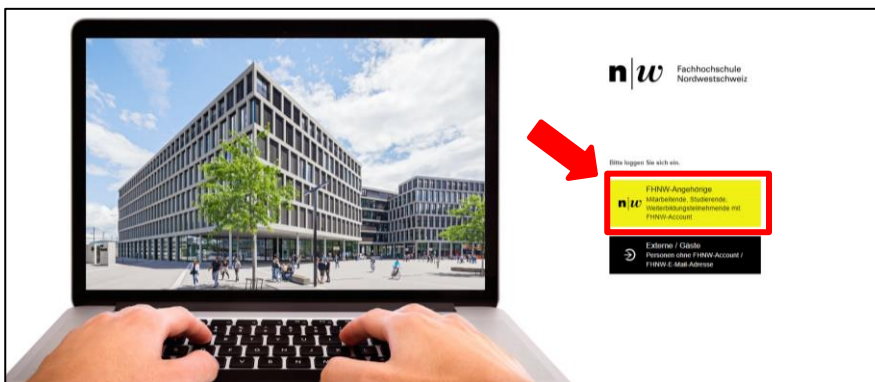

PART A – INTRODUCTION TO THE CURRICULUM

As of the start of the academic year 2017/18, a new curriculum has been introduced in our School of Business (named “[Curriculum from 2017](#)”). The main change is the existence of block courses consisting of 5 ECTS per block. Important to note is that these blocks cannot be split up. There is no ECTS division for each individual course that makes up the block. For example, the block “Business Maths and Statistics 1” must be taken as one block even if the student desires to take Statistics 1 only.
