Guide & questionnaire teachers and students

Guideline

The dialogue is a personal conversation between teachers and students. It is prepared individually with the following catalog of statements. The focus is on the view of the joint lessons, the skills acquired and the outlook for future learning. The teachers ensure that all important points are discussed on both sides.

Recommended talk time: 40 minutes.

The teachers...

- ... draw a personal conclusion from the dialogue with the students.
 - ... derive measures from this and implement them independently.
 - ... discuss the measures with the students.
 - ... check the results and discuss them in the employee appraisal.
